FOR IMMEDIATE RELEASE

ENTERPRISE INTEGRATION RECOGNIZED BY *CIO* MAGAZINE AS A CIO 100 HONOREE

JACKSONVILLE, Fla., June 5, 2015—IDG's *CIO* magazine announced Enterprise Integration (EI) as a recipient of the 2015 CIO 100 award. The 28th annual award program recognizes organizations around the world that exemplify the highest level of operational and strategic excellence in information technology (IT).

"For 28 years now, the CIO 100 awards have honored the innovative use of technology to deliver genuine business value," said Maryfran Johnson, Editor in Chief of CIO magazine & Events. "Our 2015 winners are an outstanding example of the transformative power of IT to drive everything from revenue growth to competitive advantage."

Over the last several years, Enterprise Integration has developed a tool suite that can create a simple, unified view of the entire IT supply chain. This allows EI's clients to visualize, understand and improve upon the value information technology delivers to their business. Today, this vision is known as Service Delivery Intelligence™, or SDI™.

Once all critical points of the business technology supply chain are captured with SDI™, the information is programmatically fed through Digital Robotics to rectify, learn, and document synthetic transactions as well as common "if-then" equations to resolve the issues in milliseconds. Through the harnessed power of Digital Robotics and SDI™, only 10% of incidents and problems need human remediation, freeing up brilliant minds to focus on strategic activities instead of mundane tasks.

Michael Locher, founder and Chief Executive Officer at Enterprise Integration stated, ""The CIO 100 Award validates our vision and direction by achieving an economic model that does not exist in any prospective client or service provider today. Automation and Digital Robotics provide us with an advantage over any global provider, ultimately providing the best-in-class service to our valued clients."

Enterprise Integration was selected for this year's CIO 100 Award after a team of external judges (many of them former CIOs) reviewed applications in depth, looking for leading-edge IT practices and measurable results. Finally, *CIO* editors reviewed the judges' recommendations and selected the final 100.

Coverage of the 2015 CIO 100 Awards will be available online at CIO.com on August 1, 2015 and in the August issue of *CIO* magazine.

###

ABOUT ENTERPRISE INTEGRATION:
Enterprise Integration (EI), headquartered in Jacksonville, Florida, since 1998, delivers the promise of IT through a unique integration of people, process and technology. We provide enterprise-wide, world class IT services and global support to clients worldwide. We engineer consistent and efficient solutions that allow our customers to focus on their core competencies and are organized and managed for optimum client flexibility, while maintaining core alignment with Information Technology Infrastructure Library ("ITIL") service delivery methodologies. Our team of more than 225 industry-leading professionals have the capabilities and certifications to meet or exceed nearly all of the technology requirements specific to your IT infrastructure.

In addition to being 100% ITIL-Foundation Certified, EI's team of professionals hold more than 500 technical certifications. For additional information on EI, visit www.entint.com.

About CIO:
CIO is the premier content and community resource for information technology executives and leaders thriving and prospering in this fast-paced era of IT transformation in the enterprise. The award-winning CIO portfolio--CIO.com,*CIO* magazine (launched in 1987), CIO executive programs, CIO strategic marketing solutions, CIO Forum on LinkedIn, CIO Executive Council and CIO primary research—provides business technology leaders with analysis and insight on information technology trends and a keen understanding of IT's role in achieving business goals. Additionally, CIO provides opportunities for IT solution providers to reach this executive IT audience. The CIO Executive Council is a professional organization of CIOs created to serve as an unbiased and trusted peer advisory group. CIO is published by IDG Enterprise, a subsidiary of International Data Group (IDG), the world's leading media, events, and research company. Company information is available at www.idgenterprise.com.
