ENTERPRISE INTEGRATION

FOR IMMEDIATE RELEASE: 02/06/2017

Enterprise Integration Celebrates 10 Year Partnership With Citrix® Systems

Jacksonville, Fla. – Enterprise Integration (EI), a leading managed services provider in IT automation, is celebrating their 10 year partnership with Citrix® Systems. Since 2007, EI has leveraged the Citrix® Solution Advisor partner program to gain access to Citrix® technologies, product training, technical certifications and support that are essential in meeting the needs of their clients.

The partnership expanded EI's reseller segment and VAR capabilities by coupling Citrix® technologies with their [Professional Services](#) portfolio. This collaborative effort enabled EI to seamlessly execute their solutions in tandem, to create real IT Operational Transformation that makes them a truly unique and valuable IT partner.

In 2012, EI was able to further advance their services offering with the world-wide release of the Citrix® Service Provider Program ("CSPP"). The CSPP program enabled EI to join the hosted provider market space and build their [Cloud+](#) service offering. EI's Cloud+ offering is powered by the best-of-breed, market-leading technologies that work in tandem with their experts to deliver the most powerful, fully redundant and completely secure private cloud solution.

Tracey Brown, CTO of Enterprise Integration stated, "We are excited to be celebrating a 10 year milestone with Citrix®. Citrix® encompasses solutions for mobility, desktop virtualization, cloud networking, cloud platforms, collaboration and data sharing. Collectively, we can provide both on-premise and hosted Citrix® services in this vastly growing mobile work-style market."

###

About Enterprise Integration:

Enterprise Integration (EI), headquartered in Jacksonville, FL, is an onshore managed services provider that is changing the economic model of IT through automation and digital robotics. EI offers proactive IT monitoring and management, managed outsourcing, security solutions and ITIL consulting. By focusing on innovative technologies that prevent IT problems, EI allows companies to focus on their core business goals. EI employs the industry's most experienced people who are further empowered by best practice methodologies and best of breed tools.
