ENTERPRISE INTEGRATION

FOR IMMEDIATE RELEASE: 02/24/2017

## **Enterprise Integration Introduces New Workforce Optimization Services Offering**

Jacksonville, Fla. February 24<sup>th</sup> 2017 – Enterprise Integration (EI), an onshore IT MSP powered by digital robotics, announced today that they will be expanding their IT services portfolio to include a strategic recruitment partnership coined, Workforce Optimization.

EI's Workforce Optimization service offering is an extension of EI's core offerings around IT managed services and automation. It embodies the need for lower costs, better quality candidates, faster hiring and workforce flexibility. Through predictive recruitment analytics and EI's culture to innovate and automate, EI's Workforce Optimization service offering creates economic value by helping your business become more competitive and, ultimately, more successful.

The services offering will be led by EI's seasoned Director of Talent Acquisition, Casey Allen. "I'm excited to head this new services offering with EI. My team truly understands that you want to reserve those seats for only the most qualified and talented candidates who possess the knowledge, skills and experience you will not find through your Talent Acquisition department or your typical staffing firm," said Mr. Allen.

Mr. Allen further stated, "Our robust executive network and database spans across the globe and is comprised of the world's foremost authorities in their professional field. Many of our candidates already serve as industry leaders in today's corporate workforce, while we've identified others as brilliant "Up and Comers" exhibiting the intellectual aptitude and business acumen of tomorrow's C-suite. It's these highly valued and nurtured relationships that set EI's offering apart from the common staffing firm."

To learn more, please contact Casey Allen at 904-928-2786 or email: [cyallen@entint.com](mailto:cyallen@entint.com).
