## **Enterprise Integration Partners with Eracent to Enhance ITAM Offering**

Jacksonville, Fla. June 27<sup>th</sup> 2017 – Enterprise Integration (EI), an onshore IT MSP powered by digital robotics, announced today that they have partnered with Eracent, a leading provider of IT Asset Management (ITAM) and Software Asset Management (SAM) solutions, to enhance their [Asset Lifecycle & Logistics Management](#) offering.

EI offers a full service end-user device support facility complete with end-to-end logistics support and a proven process for accurate tracking, attaining streamlined asset management and processes. Partnering with Eracent will further enable EI to meet their clients' ITAM challenges within today's complex and evolving IT landscape. Together, they will save enterprise clients significantly on their annual software spend, reduce their audit and security risks and establish more efficient asset management processes.

The services offering will be led by EI's seasoned Director of their Asset Lifecycle & Logistics Center, Joe Munley. "Scalability, a superb customer support model and a comprehensive, progressive roadmap were huge differentiators that factored into our decision to partner with Eracent," said Joe Munley. Mr. Munley further stated, "We believe Eracent coupled with our automation, integration and digital robotics capabilities will allow us to provide Next-Generation ITAM services to our clients, whom truly benefit from this partnership."

"Eracent is pleased that Enterprise Integration has recognized the broad capabilities of the IT Management Center suite and has selected it to enhance their ITAM and SAM offerings", said Eracent President William Choppa. "With this technology and Enterprise Integration's experienced team to support them, we are confident that their clients will save on their software spend, reduce publisher audit risk, and automate their SAM processes."

To learn more about EI's enhanced Lifecycle Management offering, please contact Joe Munley at 904-928-2497 or email: [jmunley@entint.com](mailto:jmunley@entint.com).

###

About Enterprise Integration:

Enterprise Integration (EI), headquartered in Jacksonville, FL, is an onshore managed services provider that is changing the economic model of IT through automation and digital robotics.
