ENTERPRISE INTEGRATION

FOR IMMEDIATE RELEASE: 02/24/2017

### **Enterprise Integration Receives Best of Jacksonville Award**

Jacksonville, Fla. – Enterprise Integration has been selected for the Best of Jacksonville Award in the Computer System Designers & Consultants category by the Jacksonville Award Program.

Each year, the Jacksonville Award Program identifies companies that we believe have achieved exceptional marketing success in their local community and business category. These are local companies that enhance the positive image of small business through service to their customers and our community. These exceptional companies help make the Jacksonville area a great place to live, work and play.

Various sources of information were gathered and analyzed to choose the winners in each category. The Jacksonville Award Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the Jacksonville Award Program and data provided by third parties.

Michael Locher, President & CEO of Enterprise Integration said, “We are honored to receive this award and to have had the opportunity to provide local businesses with our big fat claim, which is our contractual promise to lower their 80% maintenance on legacy IT spend. With our digital robotics and automation toolsets, we can ultimately reduce their IT legacy spend by 10% year over year through identifying placeless work or menial tasks.”
